

Forum for a Tipping Point

Collaborative Global Healing and Transformation

March 2014 – February 2015

With Leslie Temple-Thurston, Brad Laughlin, Guest Facilitators and You

For Spiritual Warrior and Teacher Training Classes and Graduates

We feel a deep sense of urgency about helping the Earth at this pivotal moment in time. Humanity is facing a choice point, and we are at what is perhaps the most critical juncture in human evolution. There are so many perilous, precarious situations reaching a crescendo right now, and we feel called to muster an army of loving souls who care enough to come together in collaboration to help create a tipping point and a miracle for the Earth.

Together as a group we will focus our attention on world issues, including the ones listed below, process the consciousness associated with them, share how we feel about them, and use different spiritual healing modalities to affect change and to transmute and transcend these issues. Our hope and prayer is that by doing so, we create a series of shifts in consciousness—in ourselves and in collective consciousness—that will manifest a tipping point:

- The economic system
- Greed and lack of integrity in the world's political and corporate leaders
- Fukushima
- Peak oil
- Species extinction
- Climate change and the ticking time bomb of methane
- Erosion of civil liberties (corporate control/domination, NSA spying, militarization of police forces, descent into fascism, erosion of democracy, etc.)
- Military industrial complex
- Misogyny
- Ego Death in a Time of Extinction: Grief and Transformation.

One of the new healing modalities we have been given and are guided to share at this time is something we call *The Seven Keys of a Tipping Point for the Earth*, which is based on Leslie's book *Returning to Oneness*. This is about using the seven keys as they apply to the critical issues facing humanity today, especially the core issue of *Near-Term Extinction* (NTE), which is at the heart of all the issues listed above.

We see NTE as the hub of a wheel, and all of the issues are spokes of the wheel, which all together form a shadowy, twisted mandala of demise, decay and death. Our focus will be to confront, process, feel, heal and transmute the issues and to create a new form inside each of us and in the world—a radiant and luminous mandala of love, truth, peace, oneness and heart-centered consciousness.

Collaboration

While several of us will be facilitating the dialogue and sharing some new spiritual healing modalities, *this is not a course taught by us* in the way we have done in the past. We see this as a collaborative opportunity to come together in community and for us each to share our wisdom, knowledge, creativity and hearts. Many in the CoreLight community have unique and valuable spiritual healing modalities to offer, creative art forms to share, and so forth, and we invite you to come forward and share these skills at this critical moment. We invite participants to present additional important or interesting topics that concern NTE and that we should all know about. We also intend to invite several guest facilitators to support us with topics in which they specialize.

Together we will create a field of healing, loving consciousness to surround the Earth. As we each contribute our insights, teachings, healing modalities and creative expressions, we are continually enriching our collective field and actively calling forth a new paradigm of healing, wholeness and heart-centered consciousness.

We can feel it is time for “all hands on deck”! So we are guided now to co-create this opportunity, and we invite you to join us.

Dates and Time

There will be one formal gathering per month with us on Sundays at 9:00am Pacific Time using GoToWebinar. The dates are:

March 30
April 27
May 18 (Guest facilitator Carolyn Baker)
June 29
July 27
August 24
September 28
October 26
November 23
December 21
January 25, 2015
February 22, 2015

The format will be very organic. The topic for each gathering will be chosen closer to the time of the gathering according to the prevailing energies and what is happening in the world at the time.

The course will be broken into two semesters: March-August and September-February. For now, the commitment is for the first semester only.

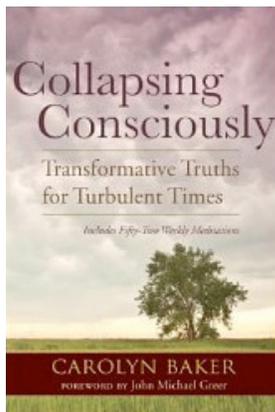

Breakout Groups

There will be additional gatherings each month in between the ones listed above. For example, we invite you to meet in breakout groups:

- to process and discuss world issues further if your passion is ignited
- to teach/offer a healing modality/skill
- to form subcommittees to do further research about an issue.

Dates and times for the Breakout Groups will be addressed during our first forum on March 30.

Reading

As an accompaniment to our collaboration, we will be reading Carolyn Baker's new book, [*Collapsing Consciously: Transformative Truths for Turbulent Times*](#), which is a collection of her essays and meditations that inspire and uplift the spirit. From a recent review by Dianne Monroe:

“Our culture is relentlessly positive. We’re trained to trust there will always be a solution, to believe in happy endings, to turn away from what is painful or frightening. Joanna Macy calls it a “cult of optimism.” It leaves us unprepared for life’s challenges and sorrows, in ordinary times and even more for the cataclysmic changes and challenges our future holds.

As Barbara Ehrenreich writes in [*Bright-Sided: How Relentless Promotion of Positive Thinking has Undermined America*](#), ‘There is a vast difference between positive thinking and existential courage.’

Baker shows us how to walk the path of existential courage, in the face of whatever life hands us, including and especially living in today’s uncertain and disturbing times.”

Furthermore, we are pleased to announce that Carolyn will be the guest facilitator at our gathering on May 18!

The Power of Creative Expression

Using the old adage, *When the going gets tough, the tough get going*, applies here. In difficult times there is nothing quite like using all of one’s avenues of creativity, no matter how rusty they may have become, to mitigate and uplift our stuck-ness and even what could be our deepest fears. Fears around the future, uncertainty and such can be gripping to the point of rendering us frozen and helpless. We can mitigate all this through our ability to use “play.”

We invite you to explore, share, play and offer each other different forms of creative expression throughout the year. Mediums such as: poetry, painting, drawing, collage, song, dance, drama, photography, writing and different forms of play, such as mime, laughter, time in nature and any other forms you can think of, and no matter how silly or unprofessional they may seem, would help us stay buoyant and upbeat. Any way in which we can share and swap mediums to entertain and enliven one another will allow us to have lighthearted fun in the face of the negative potentials we might be facing. We can utilize many different mediums for our play, and even use our old medium of Caucus, and the new medium of Go to Webinar for the purpose of delighting and uplifting one another.

In times of chaos and great change, one of two things happens: Creative people create, motivated by the chaos. And people who are shut down creatively implode and take a fall. Creative expression is essential in these times. It allows us to not feel helpless in the enormity of what’s happening. Creative solutions come when we open ourselves to play and to practice forms of creative expression. Our personal creativity can take a whole slew of forms, such as those listed above, as well as things like praying, processing and so forth.

Exercises

Throughout the year we will suggest movies to watch, books to read and exercises to do in between our gatherings, which are designed to inspire, support and help us transmute and transcend the shadow processes associated with the world issues. When we come

together in our monthly gatherings, we will discuss and share our experiences of the exercises.

Partners for a Tipping Point

We learned that in CoreLight's recent *Seven Gateways to Financial Liberation* series, the "buddy system" worked very well! So, we thought we would create a system called "partners for a tipping point". Everyone who participates in the collaboration with us will have a partner with whom you can check in periodically, so you can process together, share and so forth. Because some of the issues we are dealing with can feel very intense at times, it is helpful to have a friend to talk with from time to time.

Gift Paradigm

We offer this collaboration in the spirit of the gift. Its value is \$200/month, but because we don't want anyone to be turned away for lack of funds, please choose your own price. If you can't afford \$200/month, please do not let that stop you from joining us. You are still welcome. If you can afford to give more, please do, and your gift will support others who cannot.

The heart of [CoreLight's message is about love and generosity](#), and that is why we offer this collaboration on a choose-your-own-price basis. There is a "gift economy" birthing in the world, and we celebrate this new paradigm of heart-centered consciousness. We thank you for your gift and for your support of CoreLight!

(With gratitude to Ann Christianson for allowing us to use of her beautiful collage art on page 4.)
